

UM TUITION FEES FOR THE 2024/2025 ACADEMIC YEAR – FULL-TIME STUDIES

According to the Higher Education Act (DZS), tuition fee for full-time studies is charged for:
 - full-time first and second-cycle study programmes carried out by public higher education institutions with a concession, if students have already obtained an education corresponding to at least the level of education obtained under the study programme in which they are enrolled, or if they have not yet obtained an education corresponding to at least the level of education obtained under the study programme in which they are enrolled and their student status in the previous study programme has been terminated in accordance with the higher education legislation;
 - re-enrollment in the study programme or option, if their student status has ceased due to withdrawal from this study programme or option.

Citizens of the Republic of Slovenia enrolled in parallel full-time first- and second-cycle study programmes are not charged a tuition fee if they have enrolled in the enrollment places for parallel studies and are already enrolled in the study programme leading to the level of education that corresponds to at least the level of education of the parallel study programme.

The tuition fee is also not charged if the student has already exercised the right to repeat a year or change the study programme or study option due to failure to fulfil study obligations in the previous study option or study programme but has enrolled in a higher year than was previously enrolled at the same level of study.

Fees for which the 2024/2025 academic year plan the implementation of studies that exceeds the scope of the accredited study programme (i.e., implementation in the English language) will also include in the tuition fee the actual costs that arise from the implementation of the additional scope of the study programme. Criteria for the above-standard implementation are defined and proposed by the individual faculty. The student council of the faculty has to give its consent to the criteria for the above-standard implementation which are then adopted jointly with the policy laid by the Management Board of the University of Maribor.

When setting the amount of the tuition fee for full-time studies, the Faculty must take into account the actual costs caused by the implementation of a study programme that exceeds the scope of the accredited study programme. Students must also have the possibility to fulfil their study obligations within the standard implementation.
